**Subject: Delphi stopping Medical Insurance for Salaried Retires.**

Sir:

**Please do not allow the company (Delphi) to stop the medical benefits of its retired salaried personnel.**

I worked for 29 years for GM and another 6 years for Delphi after the split from GM because I was too young to retire from GM.

I am 63 1/2 years old and in this economy it extremely unlikely that I and many others in our position can get another job to offset the \$1200 to \$1400 it will take to replace our insurance benefits. We were told that we would have medical during our retirement.

My take home pension benefit is only \$1495.00 a month. My wife and I won't have anything to live on if Delphi stops our medical benefit because the cost for us will be about \$1000 to \$1200 per month.

I worked my last 3 years without getting a raise and had to work Saturdays and Sundays supervising Union hourly employees that were being paid time and a half and double time for their Saturday and Sunday work.

As long as there is a Delphi it must meet it's moral, ethical and legal obligation to provide the benefits it promised to the loyal and hard working salaried employees.

**PLEASE DO NOT ALLOW THE COMPANY TO STOP PROVIDING THESE BENEFITS. MOST OF US WOULD BE ABLE TO INCREASE THE PORTION WE ALREADY PAY BY \$100 TO \$200 A MONTH TO HELP THE COMPANY MORE, BUT THE FULL EXPENCE BEING THRUST UPON US AT THIS AGE IS UNREALISTIC, IMORAL, AND UNETHICAL FOR A COMPANY TO DO TO IT'S LOYAL RETIRED EMPLOYEES.**

Sincerely,
